PROFESSIONAL SUMMARY

Detail-oriented Frontend Developer with experience building responsive web applications using HTML5, CSS3, Tailwind CSS, and JavaScript (ES6+). Proficient in component-based architecture, API integration, dynamic rendering, and Local Storage persistence. Developed diverse portfolio projects including an e-commerce platform and task management system, showcasing strong foundational skills in modern web technologies and a commitment to clean, maintainable code.

TECHNICAL SKILLS

- HTML5, CSS3, Tailwind CSS
- JavaScript (ES6+), DOM Manipulation, Event Delegation, ES Modules
- API Integration, Local Storage, Dynamic Rendering
- Responsive Web Design, Cross-Browser Compatibility
- Vite, Git, GitHub, Netlify
- Component-Based Architecture, Debugging

PROJECTS

E-Commerce Website

- Built a responsive multi-page e-commerce application using Vanilla JavaScript and Vite.
- Implemented product filtering, sorting, search, category navigation, and dynamic product rendering.
- Developed reusable components using ES Modules for scalable and maintainable code.
- Added shopping cart functionality with Local Storage persistence.
- Used event delegation to handle user interactions efficiently and improve performance.
- Created dedicated product detail pages with dynamic content rendering.
- Deployed and managed the application on Netlify

Portfolio Website

- Developed a fully responsive developer portfolio using a modular JavaScript architecture.
- Implemented dynamic project rendering from centralised project data.
- Built reusable UI components and dedicated project detail pages.
- Added resume download functionality and responsive navigation.
- Applied code separation principles to improve scalability and maintainability

Additional Projects

Weather Application

- Integrated external APIs to display real-time weather data.
- Added error handling for invalid searches and network-related issues.

Task Management Application

- Built CRUD functionality for task creation, editing, and deletion.
- Implemented Local Storage for persistent task data.

EDUCATION

- HTML, CSS & JavaScript Certification, ACLC Computers, Punjab (2025)
- B.Tech, Mechanical Engineering, PTU (2014–2018)

ADDITIONAL STRENGTHS

- Strong problem-solving and debugging skills
- Experience with Git version control and GitHub workflows
- Comfortable working with modular codebases
- Fast learner with strong self-learning ability
- Career transition with professional experience in engineering and operations
